

SUMMAG

Top Efficiency Pack

The perfect match between the SUMMAG motor and the Nastec inverter.

 SUMMAG
MIDA 2

Advantageous because each model cover multiple kW sizes for simplified selection and reduced stock costs. They utilize SiC mechanical seals instead of lip seals and include more 304 stainless steel components to minimize corrosion. SiC bushes replace carbon ones, enhancing overall reliability.

 SUMMAG
VASCO 2

 SUMMAG
VASCO 1

Versatile

because each SUMMAG motor can be paired with different hydraulics, according to specific needs.

Guaranteed for up to 5 years

because the standard warranty can be extended with product registration.

 SUMMAG
MIDA 1

Ideal for continuous use, the SUMMAG utilizes the same technology as solar motors and is designed to operate for 10 hours daily, featuring top-quality components and a robust design.

Code	Model SUMMAG 4	Voltage	Power P2	Courrent	Inverter model

Warranty extension

STANDARD WARRANTY NASTEC

24 months from the date of registration, but no later than 36 months from the date of manufacture/shipping document (DDT), in accordance with the warranty conditions stated in the sales documents.

SUMMAG + INVERTER WARRANTY EXTENSION UPON PRODUCT REGISTRATION VIA APP

Extended to 4 years from the date of registration, but no later than 5 years from the date of manufacture/shipping document (DDT).

The terms start from the date of manufacture/shipping document (DDT) of each product.

The warranty extension is applicable to products that have not been stored in the customer's warehouse for more than 12 months. In such cases, the conventional warranty of 36 months from the date of manufacture applies.
